V.A. BEACH

Most people know what the va. beach scene is like, but those who don't the scene is really ripp"n" with Henry's switchers, Alans high airs, Crescini's frontside bonelesses, Andy Howell's arched inverts,Fudala's backsides.We decided not to put to many pictures of these people in this issue because they already have extra coverage in all the other local V.B. rags We do have pictures in this issue of these hot skaters and also an interview with Alan Midgette.
